

LEVI STRAUSS & CO'S OVERALLS

strong, durable, comfortable garments for workmen

Best Chance in Years for a Vacation East

DATES OF SALE
July 21, 22, August 13, 14; September 10, 11.

ROUND TRIP SALE

On the above dates you can buy excursion tickets to the following eastern cities, and at Chicago or St. Louis buy daily 30 day round trip tickets at the lowest rates in years to New York, Boston, New Jersey, New England, Atlantic Coast and Canadian resorts. Omaha, Kansas City, \$40.00; Chicago, \$55.00; St. Louis, \$45.00; St. Paul, \$52.00; Peoria, \$51.10. Other eastern points in proportion.

DAILY LOW RATES

On other dates than those named above somewhat higher excursion rates with longer limits are in effect to principal eastern cities.

THE BURLINGTON'S THROUGH SERVICE

Every day through standard and tourist sleeping car service via scenic Colorado and Denver to the East. Personally conducted east-bound excursions frequently each week.

GO BURLINGTON

Take a Burlington folder, note the Burlington's eastbound service—three daily highest class trains Denver to Chicago, and two to St. Louis. The map shows the attractive and diverse routes possible if your ticket reads "Burlington." Burlington trains have the "On Time" habit. The Chicago-Denver Limited reached Denver on time 355 days during 1908. Let me help you.

WOULD HAVE CITY MADE BEAUTIFUL

There is one man in the city above all others, perhaps, that is striving assiduously to make preparations for the old soldiers' entertainment during the encampment which takes place next month from the 9th to the 14th. That man is B. Van der Schuit, superintendent of city parks.

He is putting forth every possible effort to make the parks beautiful and pleasurable to the eyes of the grand Army visitors who will be welcomed a happy and pleasurable welcome. There will be no "Keep Off the Grass" signs in evidence. The parks will be thrown open to the veterans for them to use as they may see fit.

The superintendent states that the streets of the city, outside the central business districts, are completely over-run with weeds and that before the city can be made to appear metropolitan these weeds must be cleared away. He wants the people to aid him in this work and feels that if they are so disposed they can materially assist in the matter. Many of the sidewalks of the city are not "parked" and it is found that at these places there is an overgrowth of weeds and obnoxious grass. The owners of the property abutting the parked sidewalks can with very little expense remove the weeds and thereby make the street appear as it should.

The assistance of the people in this matter is solicited by Superintendent Van der Schuit in the following open address:

"July 30, 1909.

"To Whom It May Concern:
"The G. A. R. encampment will be in our city from August 9 to August 14. Will you kindly assist us in clearing away the weeds and tall grass between the curb and sidewalk so as to leave a good impression on our visitors? This is a request of the board of park commissioners by the city council and would ask that you give us your assistance in this matter. Respectfully,

"B. VAN DER SCHUIT,
"Park Superintendent.

"By Tillie H. Poultier, Clerk."

TOWNS IN MEXICO RAZED BY QUAKE

Mexico City, July 30.—Central Mexico from the Atlantic to the Pacific and from Queraro to the north to Oaxaca on the south, covering more than a thousand square miles, was shaken today by a series of the most severe earthquake shocks felt in the region for a quarter of a century.

Reports of the loss of life are not complete, but the official figures show that few were killed outright and more than a score of persons fatally injured. The towns of Acapulco and Chilpancingo have been partially destroyed.

According to the observatory records, the first shock of the series was felt at 4:15 a. m. It was very severe causing the bells of the many cathedrals of the city to toll, breaking crockery and in some instances leveling walls. The people had hardly recovered from the first fright when a second and more severe shock drove nearly everybody to the streets and plazas. This movement lasted with marked severity for one minute and thirty seconds. The tall buildings of the city swayed and a number of the houses collapsed. Six persons were killed in Mexico City and its environs. Four persons are in hospitals, and their recovery is despaired of.

The large American colony escaped unscathed. The people were terribly frightened. For days they had been predicting disaster because the snow on the peak of the volcano Popocatepetl, visible from this city, has been melting. An old Aztec legend declares that when the snow on this volcano disappears so will the city at its base. The property damage here is slight. Some of the cathedral walls were cracked and scores of adobe walls were sent to the ground, but the main business district shows no signs of the severe shaking which it received.

The observatory officials declare that Mexico City rests on an old lake bed, the made ground upon which a great part of the city stands acting as a spongy mass, which neutralized the severity of the shock. All electric current in the city was shut off during the first shock and the city remained in darkness.

The walling and praying of the Indians in the public squares added to the weirdness and painted an unforgettable picture on the minds of the half-dazed, shivering hordes of frightened women and children who stood in the dazzling rain waiting for daylight. When the sun shone the people returned to their homes.

Soon, however, the third shock sent them again scurrying to the streets. This shock was lighter than the others. When the Federal Telegraph company attempted to work the officials found the wires to the west coast were down. No communication with the state of Guerrero, the center of the earthquake region of Mexico, could be established. After hours of effort, wires were opened by the round about way of the isthmus of Tehuantepec. The first message came from the port of Acapulco, and was directed to the director of telegraphs. It read: "Acapulco is in ruins. The loss is incalculable."

Communication was then lost. Shortly after noon another wire was opened direct to Acapulco. A message said the lower half of the city had been destroyed and that four bodies had been taken from the ruins. Later a message from Chilpancingo stated that three deaths had occurred there and the number of injured was not known. The barracks, national palace and hospital there were badly damaged.

The American consul at Acapulco said the shocks were lessened in intensity. Three bodies have been taken from the ruins. The churches, customs houses and all of the hotels in the place were rendered uninhabitable, while not a house in the city escaped damage. All of the buildings along the water front were leveled.

The first shock at Acapulco occurred this morning and the people, knowing by past experience that to expect, fed to the open. They had not got out when a series of six severe shocks threw the more unstable buildings to the ground.

German Countess Causes Jealousy

Boston, July 30.—Jealousy is rife in the president's set at Beverly. The society folk who are clustered around the Taft cottage are bitterly, sadly envious over the successful bid for Mrs. Taft's favor which a charming woman has made.

A book—a two volume edition de luxe—is the cause of all the heartaches and the Countess Von Bernsdorff, wife of the German ambassador, is the much envied woman. The close-knit bonds of friendship between Germany and America have been strengthened through the graceful act of the countess in presenting Mrs. Taft, with memoirs of the late Count Von Bernsdorff, the present count's father, who was a great friend of Alonzo Taft, the president's father, when the latter was American minister to Germany.

As a result of the Countess's gift, the Tafts are more than merely friendly to

the count and his charming wife. Indeed, the German ambassadoress seemed destined to outshine all the other women of the diplomatic set since the receipt of the gift by Mrs. Taft.

Mrs. Taft was immensely pleased with the gracious token of esteem. As for the president himself, he considers the book one of the most precious in his library, containing as it does so much that concerns his father, whose memory he has always held in the most extravagant veneration.

The Japanese minister, though long a great foe, is almost forgotten in the ground. His face was seen only when Mrs. Bryce, a great favorite, is rather palling beside the sudden rise of the Countess Von Bernsdorff. This is all the more wonderful as the Von Bernsdorffs have not up to now mixed in the social life of Washington any more than their position absolutely demanded.

PRaises UTAH EXHIBIT AT THE EXPOSITION

Thomas Hull, United States surveyor general for Utah and director of the Utah exhibit at the Alaska-Yukon-Pacific exposition, was in Ogden yesterday enroute to Salt Lake City, returning with his wife from a month's visit to the fair and the Pacific coast. Mr. Hull says that Utah's exhibit at the fair is eliciting much favorable comment and is as good as any other state exhibit and better than many. He said that the weather was superb on the coast and at times it was almost unpleasantly cool. He stated that the Pueblo building of Utah at the fair will be a busy place on August 25, which is Utah day at the fair, and that it would be decorated with Utah colors and turned into a huge reception hall for visitors on that day.

A large delegation from Utah will visit the fair on the 25th, arriving on a special train. A program in which the Salt Lake tabernacle choir will sing will be given in the natural amphitheater in the afternoon. The address of welcome will be delivered either by President J. E. Chilberg of the exposition or Director General I. A. Naden.

The Salt Lake high school cadets are to be sent to the exposition, where they will camp on the exposition grounds near the athletic stadium. Utah's building at the exposition is considered the most novel and attractive on the grounds.

MINERS DISCARD USE OF RITUAL

Denver, July 30.—Consideration of proposed changes in the constitution occupied the attention of the Western Federation of Miners today. Among the important changes was the abolishment of the ritual, providing for the nomination of all officers, including members of the executive board, at the convention, and their election by referendum vote.

It was decided to do away with the ritual, thus abolishing the use of all grips, signs and passwords for entrance permission to locals. Membership cards will now grant admission. Delegate Flynn of Butte won his second victory when he succeeded in tabling a motion to instruct the Butte local not to discriminate against the engineers and firemen who took the places of the strikers during the brewery strike. The executive board wanted the instructions adopted.

The date of the annual convention was changed from the second Monday in August to the third Monday, August. The dates of the semi-annual election of officers in the locals was changed from March and September to January and July, and the date of the ending of the fiscal year was changed from March 31 to June 30.

FUNERAL OF HARRY PULLIAM

New York, July 30.—The funeral of Harry C. Pulliam will be held in Louisville, Ky., next Monday. George W. Cain, a brother-in-law, arrived here today from Nashville, Tenn., to take charge of the body. He said Mr. Pulliam had been overtaxed, took his business too seriously and of late had been anxious to get out of the baseball business.

ROOSEVELT HONORED IN LEIPZIG, GERMANY

Leipzig, July 30.—The university of Leipzig, which is celebrating the fifth centenary of its foundation, today conferred the degree of LL.D. on Theodore Roosevelt. Among others to receive degrees were King Frederick of Saxony and Count Ferdinand Zeppelin, aeronaut.

RACES IN ENGLAND.

Goodwood, Eng., July 30.—The Chichester plate, a handicap of 250 sovereigns, distance five furlongs, was won today by Foxe Oot, Persaudin was second and W. A. Storr's Trick, third.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

JNUE GEIGER IS SEVERELY INJURED

Julian Geiger, seventeen years of age, and Roy Porter were riding their bicycles to the Hot Springs last night about 7:30 o'clock and when near Five Points young Geiger's bicycle struck a rut in the road, throwing him to the fair and the Pacific coast. He was cut and lacerated, a gash extending the full length of his cheek, the flesh being scraped off his cheek bone and also from the bone over his left eye. Dr. J. W. Pidecock made a hurried trip to Five Points to the assistance of the unfortunate Geiger and it took four stitches to close up the gaps in his face.

SECKEL TAKES MORNING ROUND

Flossmoor, July 30.—At the end of the morning round of eighteen holes of the special final of the Western Amateur Golf association tournament at Homewood today, Albert E. Seckel of Riverside led Kenneth P. Edwards of Midland by 5 up.

The excellent weather conditions brought out high class golf. Seckel getting a remarkable card of 71. Their cards:

Seckel—Out, 34; in, 37-71.

Edwards—Out, 37; in, 39-76.

Charles Evans, Jr., of Exmoor, finished 3 up on Paul Hunter, the Midlothian player, at the end of the morning round of the other semi-final match. Evans had a medal score of 75, while Hunter took a 78.

A gallery followed each match during the morning round. The Evans-Hunter match attracted a slightly larger gallery. At the novelty of two eighteen-year-old boys meeting in such an important match was not to be resisted. Evans holds the title of champion of the city of Chicago, western junior champion and former western interscholastic champion. Hunter has been twice champion of southern California.

The brilliant work of Kenneth Edwards in setting a new competition record of 70 for the course in his match with Robert Gardner yesterday caused him to be a slight favorite over Seckel as they started on their long thirty-six journey.

EL PASO ON MEXICAN SOIL.

Mexico City, July 30.—At the state department tonight it was said that an old map had been discovered, which showed that the present site of the city of El Paso was on Mexican soil. Senor Beltran is now in Washington conferring with Anson Mills, a member of the international boundary commission over the matter.

ORVILLE WRIGHT ATTAINS ZENITH OF MERITED SUCCESS

Washington, July 30.—Orville Wright this evening attained the zenith of hard earned success. In a historic cross-country flight in the famous aeroplane built by himself and his elder brother, Wilbur, and accompanied by Lieut. Benjamin D. Foulers, of the army signal corps, he not only surpassed the speed requirements of his contract with the government, but accomplished the most difficult and daring flight ever planned for a heavier-than-air flying machine.

Incidentally he broke all speed records over a measured course. His speed was more than forty-two miles an hour. He made the ten miles flight in 14 minutes and 42 seconds. He went up nearly 500 feet in his crossing of the valley of Four-Mile Run and his average altitude was about 200 feet.

President Taft arrived upon the parade ground at Fort Myer just in time to see the aeroplane land and to participate in the wild demonstration, which welcomed the triumphant aviators.

A great crowd watched while Orville Wright had his machine placed on the starting rail and gave the motor a final test.

The engine worked perfectly and the plane seemed to realize that this epoch-making movement was at hand. They pressed forward against the lines which held them back, breathless, intense, eagerly watching every movement of the aviator and his machine. Lieutenant Foulers climbed into the passenger seat beside the motor. Wilbur took his place at the right tip of the planes and Orville clambered into his seat beside Foulers.

He gripped the levers and slipped

SCHOOL BOARD HOLDS MEETING

Last evening the board of education met for the first time in their new quarters in the city hall, and transacted a large amount of routine business. Reports were read and adopted, appointments made and plans for improvement presented.

Residents in the Third ward and Sewer Inspector St. John forwarded complaints as to the defective sewerage in the Washington and Mound Fort schools.

Superintendent Mills recommended the appointments of Edna Woods, Hazel Hartog, Ruby Herdt, graduates of the Ogden high school, to assist him. He also recommended the appointment of Heber D. Johnson as instructor in English and T. J. Huff to take charge of the commercial department in the high school. Recommendation was adopted.

J. Huff will take the place of O. J. Stillwell, the very efficient instructor who has tendered his resignation on account of business.

Jennie Anderson of the high school and Miss Mabel Rouse, a primary teacher, tendered their resignations, which were accepted.

Supt. Mills was authorized to have pictures taken of all the buildings and to get permission to have them hung in the corridor of the city hall during G. A. R. week.

Some of the teachers who refused to sign contracts last spring were granted permission to do so.

The front office of the board of education has been tendered the G. A. R. for the accommodation of visitors. The office will be used as a rest room.

All of last year's janitors, with one exception, were reinstated this year. The finance committee reported a balance on hand of \$49,073.29, and that the school tax levy was placed at 9 mills on an assessed valuation of \$11,939,068, the city schools receiving \$197,900.

Bids were received from the Underwood Typewriter company, the Smith Premier company, the Remington company, the L. C. Smith company and the Royal Typewriter company, for the installation of typewriters in the new high school. These bids were referred to the supply committee.

L. S. Hodgson, the architect, reported that the new high school building would be ready for occupancy at the time set in the contract, September 20.

It was decided that there would be no petition placed in the large assembly room of the high school.

Miss Ivy Williams, clerk of the board, was granted the assistance of six extra persons to take the school census.

CYCLIST SERIOUSLY INJURED.

Eureka, Cal., July 30.—As a result of a collision this evening between motor cycles going at high speed and a rapidly moving Northwestern Pacific passenger train, Clifford Davidson, a boiler-maker, nineteen years old, was terribly injured. Davidson apparently became paralyzed with fear when the train suddenly shot into view as he came within a few yards of the railroad crossing. Making no effort to stop his machine or throw himself off, Davidson crashed into the engine, striking the forward wheel. The piston rod struck the young man in the hip and threw him high in the air. His hip was fairly pulverized, spine fractured, one arm broken and he was frightfully torn about the chest. He will die.

Davidson came from Nova Scotia.

MONTANA MURDERER CAPTURED BY POSSE

Butte, July 30.—Lewis Cundriff, self-confessed murderer of Frank McLean, a freighter, was captured by a posse last night ten miles east of Wisdom, where the crime was committed. Joe Cundriff, the slayer's brother, over whom the men quarreled, has also been arrested. The men were taken to Dillon today and lodged in the county jail.

NEGROES SHOT TO DEATH

Opelousas, La., July 29.—Onexime Thomas and Emile Antoine, negroes, who were being brought to jail here tonight by deputy sheriffs, were taken from the police and shot to death. Thomas shot a white man several months ago, was found in Antoine's house and both were arrested.

Anty Drudge Gives a Lesson in Spelling

Little Mary—"F-E-L-S-N-A-P-T-H-A. What does that spell, Anty?"

Anty Drudge—"To you, Dearie, it spells just Fels-Naptha, the name of a soap. To your mother and me it spells an easy way of washing clothes in cool or lukewarm water, without boiling or hard rubbing and with a saving of time, labor, bother, discomfort and money. You'll learn, some day, my child, that it's a very important word to the housekeeper."

The biggest woman's club in America is the Anti-Drudgery Club.

It has more than a million members now.

All that's necessary to belong is to use Fels-Naptha soap and quit drudging on washday.

You'll have no more boiling of clothes, no bending over steamy suds, no back-breaking rubbing on a washboard in winter or summer.

You will be through with your washing before you would be well started on the old way.

And your clothes will be fresher, cleaner, whiter and sweeter.

Fels-Naptha does it.

The rules of the club are to be found in the directions for using Fels-Naptha on the back of the red and green wrapper.

Follow them carefully and you'll save money as well as hard work and bother.

Get a cake of Fels-Naptha and join the club to-day.
